

## DCP-86WHD

## Double Sided Digital Writing Board

## Description

This product belongs to the capacitive touch technology with precise sensing and high sensitivity which can bring wonderful experience to the customers. It has colorful capacitive film-forming pen which writes smoothly, dust-free and easy erasing.

## Specifications

- Capacitive touch technology, precise sensing, high sensitivity
- Colorful capacitive film-forming pen, water pen writes smoothly and dust-free
- White diamond writing film, good writing and erasing, high contrast
- Smart board eraser for easy erasing
- Standard USB interface, can be paired with any host/display device
- Modular design, easy to disassemble
- In conjunction with the software, all whiteboards support the writing memory function.
- The written content supports local storage and cloud storage, realizing QR code scanning and downloading.
- Support customized shortcut key design
- Equipped with a smart pen case that automatically senses the color change of the pen.

## Features

Model	DCP-86WHB
Housing Material	Profiles, sheet metal, glass, plastic
Product Size	1139 x 1155mm (single side writing board) 1389 x 1155mm (single side writing board plus pen case)
Wall thickness	110~135mm Adjustable
Package Size	1235 x 255 x 1265mm (double sub-panel)
Net weight	14.4kg×2
Gross weight	32.7kg
Effective writing area	1092 x 1070mm (single writing tablet)
Type Technology	Capacitive Touch Technology
Writing Instrument	Capacitive Introduction Film-forming Pen, Capacitive Pen
Sampling Rate	≥120Hz
Writing Accuracy	≤1mm
Sensing Height	≤0.5mm
Writing Tablet Color	White
Ambient Light	Full-angle glare resistance2
(Computer) Shortcut Key	Window, New, Page Up, Page Down, Save, Clear Screen
Connection Method	Standard USB Port
